

# Glendale League - Signs and Cones Layout

The signs and cones need to be in place by around 8:30-8:45 before spectators start to arrive

It is very important to cone off the two lay-byes as shown above. Residents are happy to move cones to get out of their parking spaces.

There are 3 types of sign;

- The two shown in green both face away from the school and remind drivers not to park in surrounding streets
- The two shown in blue both face away from the entrances and remind drivers that parking in the school is for pass holders only
- The one shown in white is a smaller sign to remind drivers to go slowly in the venue

They can all come back in after the 11:30 games have kicked off. Cones go on the trolley to the container, the signs go to the hut. Please be careful when handling signs, if you hold them by their clip frames they are likely to spring open and fall apart.
